

Grouse Creek
June 18-1935

To The Honorable, Governor of Utah
Dear Sir; Not knowing who I should write
Have taken the liberty of writing to you, and
hope that you may be able to help me. As I
have quite a problem before me this summer.

We have a pipe line here. There is a
company organized and have shares in the
same. It is named Grouse Creek Security Pipe
Line Co. I have ~~three~~ shares in this Co. and
it stands me \$1,500. The water has got down
low, and I'm the last one down the line,
and am out of water most of the time.
Have not had any for some time now.

The ones that are farther up the line have
gardens and lawns, and it seems they must
have some device check Valve or something
for they can shut the water right off.
There is enough water if it is used for
household purposes I believe for all, and
I do not know how to do, as there is no
more water around, and am not in a position
to dig a well.

One year ago. He laid away our boy, who left a Wife and two little children. A girl three years old and a little boy one year old. and five weeks later, we laid my husband away also. The boy was under medical care and in hospitals for one year, before he died so that it has been quite hard, along with the drought conditions here. Do not like to trouble you, but thought perhaps. If there could be an investigation. I would be truly grateful to you if you could help me in anyway. Am sixty six years of age my daughter in law that lives in a part of my home, that lost her husband. makes it so hard for us, not being able to get any water. I run three shares of water in this pipe line. while the others that are using the water own one each.

Hoping that I have ^{made} myself clear to you. And not wishing to take up too much of your valuable time, hoping I may hear from you.

I remain

Sincerely
Mrs Clara C. Frost
Yonne Creek
Box Elder Co - Utah
